IDHS HELPS BUILD HABITAT FOR HUMANITY HOME

Indianapolis – Work on the first Habitat for Humanity home in the country built primarily by state employees continues. Sponsored by the Office of Faith-Based and Community Initiatives, construction of the Habitat for Humanity home located in Indianapolis commenced on April 6 and is scheduled for completion on May 12.

Over 20 staff members from the Indiana Department of Homeland Security (IDHS) will assist today with interior finishing and next Thursday, May 11 with landscaping work on a Habitat for Humanity home.

“As a department typically on scene following the loss of a home, whether by fire or severe weather, IDHS is proud to stand with other state agencies in helping construct a new home and new life for a deserving family,” said J. Eric Dietz, IDHS Executive Director.
